## Grade:Toddlers Subject:Holiday Fun Session:2017-18

Dear parent,

Multiple Intelligences provides eight different potential pathways to learning and that too in a fun way. Keeping this in mind we have developed holiday fun activities for our Toddlers so that each child has the opportunity to enjoy and learn in ways harmonious with their unique minds.

- 1) **Word Smart:** Children love to read and hear stories. Help your child build his/her favourite story in form of a pop up or big picture book and send it to school after holidays.
- 2) **Music Smart:** Happy feet with Papa, Mamma and baby. Prepare a rhyme or a dance for Father's Day in June. Record a video and mail it to your child's centre incharge. Be creative, let your child dance with props.

### 3)Logic Smart:

#### Kitchen Games:

Keep your toddler busy while you work in the kitchen by playing games, such as guessing games, sensory games, colour games, games with shapes, etc.

- Have her/him close the eyes and guess what you are cooking by the fragrance of the food being cooked.
- You could even hand over an ingredient - like cinnamon, cardamom, orange, etc. and ask to smell and guess what it is.

- You could also ask them to close the eyes and guess what you are doing by listening to the sounds in the kitchen.
- Hand the child certain objects (while the eyes are closed) and ask the child to feel and guess what the object is (for instance a wiggly jelly, a squishy sponge, smooth rubber glove, rough kitchen towel, etc.).
- Sort out the kitchen cabinets with your child. Encourage him/her to place all the big container/plates/spoons on one side and the small ones on the other side (you could also sort and pair objects together).

**3) People Smart:** Good manners begin at home. Lead by example. Show your child how to greet every member at home every day when they get up in the morning (say Namaste, good morning or hello) and at night before going to bed (say good night, sleep tight, sweet dream, bye,).

#### **4) Self Smart:Me Time -**

Independence to think at an early age makes our children independent decision makers for a better future. Let two days in a week be me time for your child wherein let her/ him make her/his own choices, for example-her/his own choice:

a.food

b.clothes

c.toys to play with

d.fruit

e. one tv show which should last for half an hour only.

**5) Body Smart:** Outdoor activities make children healthy and strong. Children love the outdoor even more when parents become a part of it. Take your child to the park, swimming, cycling, skating and let them enjoy .  
Click Pictures.

**6) Nature Smart:** When we take care of nature/environment, nature takes care of us. Teach your child how to water plants daily. Keep a bird feeder and let your child replenish water and bajra every day. Let them feed stray animals within their surroundings.Click pictures.

7) **Picture Smart:** Pictures leave a memory forever. Click pictures of your child doing all the above activities. Make an E-folder of the same and mail it to us by 30thJune2017. We will make a scrap photo album for your child and give it to you which will be treasure for the life time.

**Regards,**

Ms. Sanyogita Sharma  
Director Principal
