MESSAGE FROM PRINCIPAL

I cannot teach anybody anything; I can only make them think.

- Socrates

The swiftness and intricacy of changes in society has reinforced the need for teachers and educators to be more proactive and prominent in their contribution to the lives of children beyond classrooms. At MRIS Mohali, we believe the teachers are mentors for life, who are always reaffirming the confidence of the students and can have a positive influence on them, by walking together so that our students can become independent and make more informed decisions. Instead of being caught up in the ever changing winds of changes of school curricula, examination systems and educational policies, MRIS teachers keep innovating new ways of understanding knowledge by using powerful technologies and new patterns of integrated learning. Our students must know, their mentors at school are the people who believes in them and their potential, and will always stand with them, firm like a rock.
